

Nothing Succeeds Like Success

A winner is someone who recognises his god gifted talent and works to develop it into skill to accomplish his goal.

Awards are a way to encourage good behaviour and inculcate competitive spirit. It was a time of jubilation and celebration when the principal Dr. Ragini Kaul gave away the prizes, trophies, certificates and medals won by the students in various competitions. Students participated enthusiastically in various events and showcased their talents, techniques and agility. They won awards and accolades in various categories viz. academics, sports, performing arts, visual arts, debates, Olympiads etc. The aim was to recognise the extra talents of the students. The principal while addressing the students encouraged them to participate more and more actively in competitions to build and enhance their confidence level.
